

Creating a bold new future

Join us to explore a new global vision built on Sustainability, Spiritual Fulfillment and Social Justice.

Attend the **Awakening the Dreamer Changing the Dream Symposium**. And come together with other people who care about what's happening in the world, our community and our families. We'll look at our biggest challenges and opportunities today:

- The state of our industrial world** and the thinking that got us where we are today
- A new dream—new ideas about what really matters,** leading to deep connection and surprising solutions
- What is your role to play in this creating a new future?**

Sunday 15 AUGUST 2010 1PM - 6PM
